SECTION 504

WASTE MANAGEMENT AND RECYCLING

504.1 Recycling areas for waste generated post certificate of occupancy. Waste recycling areas for use by building occupants shall be provided in accordance with one of the following:

1. Waste recycling areas shall be designed and constructed in accordance with the jurisdiction's laws or regulations;
2. Where laws or regulations do not exist or where limited recycling services are available, waste recycling areas shall be designed and constructed to accommodate recyclable materials based on the availability of recycling services; or
3. Where recycling services are not available, waste recycling areas shall be designed and constructed to accommodate the future recycling of materials in accordance with an *approved* design. The *approved* design shall meet one of the following:
 - 3.1 The approved waste recycling area design shall be based on analysis of other regional recycling services, laws or regulations.
 - 3.2 The approved waste recycling area shall be designed to meet the needs of the occupancy, facilitate efficient pick-up, and shall be available to occupants and haulers.

504.2 Storage of lamps, batteries and electronics. Storage space shall be provided for fluorescent lamps, high intensity discharge (HID) lamps, batteries, electronics, and other discarded items requiring special disposal by the jurisdiction.
